Course Introduction Both institutional and evolutionary  
perspectives have recently exerted enormous influence in  
economic geography, generating an explosion of research  
programs and publications. However, the literature  
remains highly fragmented, and there is still much  
ambiguity as to what it means to say that economic  
geography is institutional or evolutionary. Furthermore,  
evolutionary

[Introduction to the Survey of Research: Development Issues ...](#)

Being an integral part of economic geography, the state as well as process of development reflects the final implications of human endeavour in transforming the landscape and well-being of people following certain theoretical assumptions, policy frameworks, and lines of action. Within this framework, the review of development issues covers the following themes:

[Geography 350: Introduction to Urban Geography - About Us](#)

This course is an introduction to urban geography. Geography is the study of the physical and human/social environments of the Earth, while urban inquiry focuses on the people and processes of cities and towns -- which now account, for the first time in human history, for a majority of the world's population.

[What is Geography? | National Geographic Society](#)

This cartoon is an introduction into the complex and rich world of geography and geographic education. It acts as a catalyst to thinking about the multi-faceted functions of geography, and the myriad of applications of the discipline. The world of geography is much more than place names and state capitals, and this cartoon aims to show the full breadth of the field.
