Collective Intelligence: Mankind's Emerging World in ...

Pierre Levy (French: [levi]; born 1956 in Timis) is a French philosopher, cultural theorist and media scholar who specializes in the understanding of the cultural and cognitive implications of digital technologies and the phenomenon of human collective intelligence.

Collective Intelligence: Mankind's Emerging World in ...

Pierre Levy believes, however, that rather than creating a society where machines rule man, the technology of cyberspace will have a humanizing influence on us, and foster the emergence of a "collective intelligence" - a meeting of minds on the Internet - that will validate the contributions of the individual.

Collective Intelligence: Mankind's Emerging World in ...

Pierre Levy believes that rather than creating a society where machines rule man, the technology of cyberspace will have a humanizing influence on us, and foster the emergence of a "collective intelligence" a meeting of minds on the Internet that will validate the contributions of the individual. With a depth of scholarship and imaginative insight rare among media critics, Levy demonstrates

Collective Intelligence: Mankind's Emerging World in ...

Pierre Levy Collective Intelligence: Mankind's Emerging World in Cyberspace is an important contribution to the field of computers and social theory. The following translation (from its original French) by Robert Bononno brings to the attention of American and English-speaking readers one of the Continent's most imaginative thinkers about computers and their impact on society and culture.
