Philosophy of Language in Ethics - Oxford Scholarship  
Philosophy of language, according to Hare, contributes significantly to ethics, because it provides a logical structure for moral thinking. Referring to J. L. Austin's theory of speech acts, Hare distinguishes two kinds or genera of speech acts, the descriptive and the prescriptive; and he also discusses Austin's distinction between

German philosophers Jürgen Habermas and Karl-Otto Apel are considered the originators of modern discourse ethics. [1] Habermas's discourse ethics is his attempt to explain the implications of communicative rationality in the sphere of moral insight and normative validity. It is a complex theoretical effort to reformulate the fundamental insights of Kantian deontological ethics in terms of the analysis of

communicative structures. This means that it is an attempt to explain the universal and
