I receive a lot of questions from customers asking if they should upgrade to the latest version of Microsoft Project. And why not? As of right now I work with clients who have all of these versions: Microsoft Project 2003, 2007, 2010, 2013 and 2016 as well as Project Pro for Office 365. [Making the Case for the Upgrade](#)

The options for upgrading from Project Server 2003 or 2007 to Project Server 2010 Details Note: There are multiple files available for this download.

[Project 2007 upgrade - Microsoft Community](#)

In addition to Julie's accurate answer I would add a STRONG recommendation to make sure Project 2007 has SP3 applied and files re-saved before sharing and Project 2010 has SP2 applied. The latest service packs (SPs) for older versions usually have updates in them to ensure file compatibility with newer versions.
